

# Dorothy Perkins

Case Study

- **LOCATION:** Bristol
- **PRODUCT:** Air Curtains
- **TYPE:** Chameleon
- **CONSULTANT:** KB Wilde
- **CONTRACTOR:** Ambient Air Conditioning

Dorothy Perkins is a national retail chain which is a part of the Arcadia group. This particular store was built as part of the new £500 million shopping centre, Cabot Circus, in Bristol.

The design of the new shopping centre was contemporary with its full glass facade. Due to the clear glass frontage we were asked to design an athletically pleasing unit that not only achieved the functional aspect, but was complimentary to the design of the shop front.

Diffusion supplied two, 3 metre long stainless steel cylindrical type Chameleon air curtains complete with our Energy Saving Controls.
